

DENT IS A FREE BUYER.

Lethbridge News: Chas. W. Peterson, deputy minister of agriculture, Regina, called at the News office on Tuesday. He has had the arrangement of Colonel Dent's duties in the Northwest. He has been present at some of the sales, and says that Colonel Dent is the freest horse buyer who has ever been in the west. Colonel Dent's requirements are practically unlimited and he is anxious to purchase as many horses as he can get in Western Canada. He wants 10,000 horses. He pays two prices \$80 for colts and \$100 for cavalry horses. At the sales held already in the west he has purchased everything shown that came within the standard, purchased so freely that there has been the utmost sale. Some horses are shown to him under saddle, more to halter. He makes his selections quickly and likes to go through one man's lot before looking over another. We would advise our ranchers to bring in everything in the horse line which they think will approach the class required and submit them for inspection. Mr. Peterson says there will be no disappointment as to the date of Colonel Dent's visit—July 5th at Medicine Hat, and July 8th at Maple Creek. He also says that if the horsemen and ranchers do their part there should be from \$25,000 to \$40,000 left in each of the towns. Affairs in connection with Colonel Dent's visit have assumed a different aspect, and from what we can gather from other western papers and from Mr. Peterson's information, the News certainly advises the ranchers to do their part, and share in the distribution of imperial government money.

AGRICULTURAL INSTITUTE MEETINGS.

Arrangements have been completed by the department of agriculture at Regina, for a series of agricultural institute meetings in Central and Northern Alberta. The Dominion entomologist and botanist, Professor Fletcher, who has a world wide reputation as an expert on the noxious weed question, and whose pithy, apt and effective lectures are so highly appreciated by all former audiences, and Mr. Angus MacKay, the thoroughly practical superintendent of the Indian Head experimental farm, will address these gatherings, a list of which with the dates and places will be found advertised elsewhere herein.

Every farmer and stockman who is able to do so, should make a point of attending at least one of these meetings, and to bring specimens of weeds which have been found troublesome in his neighborhood, and he should go prepared to ask questions relating to difficulties experienced in his locality and to participate in the discussions. It would certainly be very gratifying to the department and to the officers of the agricultural societies, who are leaving no stone unturned in their efforts to make the meetings result in the greatest benefit to the residents of the districts attended, and especially if the discussions are brisk and the questions numerous, which, after all, are the true indications of the utility of the meetings.

LIQUOR IN CLUBS.

The discussion in the territorial assembly on the selling of liquor in clubs is reported as follows in the Leader: In committee of the whole on the bill to amend the liquor license ordinance, Mr. McLeod moved a section to require payment of a license fee of \$25 by every incorporated club, society and corporation selling liquor. Mr. A. E. Cross resented this as most objectionable and insulting to those forming themselves into clubs. They were not, he said, opposed to paying to the revenue, but to being placed in a position nearly akin to being compelled to get a license to drink liquor in one's own house. He considered it more due to ignorance than anything else that such a resolution was brought in. Having himself existed for years the privileges of a club he could realize the position of being subject to the results of the law now in effect by which a license inspector could come in at any moment of the day. Mr. D. H. McDonald replied that this was not intended as an insult to any club, but it was only right that people who derive benefits from the sale of liquor should pay something to the treasury.

Mr. Haultain did not see any difference between a club and a man's private house. It was not a fact that clubs made a profit by selling liquor. No man in Regina, living within three miles of the club, who was not a member, was allowed to come in, and people from outside had to be put up as privileged members. Limited time, the members who proposed them becoming responsible.

Mr. A. S. Smith was not in favor of giving a license to a club but if it were to be given he would move that the fee be the same as that paid by hotels, \$200. Mr. A. L. Sifton said that the amendment was making provision that people all around the country could run themselves into clubs and get a license for groceries for \$25. Agricultural societies and school districts which had not been in the habit of going into the liquor business would be included.

The amendment was lost and the bill reported and read a third time.

EXPORTS FOR JUNE.

During June the following quantities of the articles enumerated were shipped from the Strathcona station:

Wheat	29,500 lbs.
Oats	629,120 lbs.
Flour	28,300 lbs.
Mustard	116,700 lbs.
Feed meal	1,510 lbs.
Fur	3,250 lbs.
Iron, etc.	15,270 lbs.
Dairy produce	36,000 lbs.
Lumber	2,000 lbs.
Brick	8,970 lbs.
Liquor	4,810 lbs.
Furniture	80,000 lbs.
Live hogs	80,000 lbs.

PONOKA VS. EDMONTON.

The Ponoka baseball team which came in Wednesday to take in the tournament here met the Edmonton team on the new grounds Friday afternoon. The game that ensued was one of the best ever put up in this north country, and the visitors, though playing on new grounds and handicapped by the absence of their regular pitcher made things very interesting for a time for the local team. Neither pitchers had many hits made off his delivery, Teeple for Edmonton, being particularly puzzling. Dadd, for Ponoka, made one two base hit. Billy Ball led the batting for Edmonton, having to his credit a three base and a two base hit. Other two base hits were made by Till, Teeple and Samis.

During the game Huber, while catching for Edmonton, was struck on the end of the finger by the ball and had to drop out of the game. His place was taken by Wally Ball. Dadd, of Ponoka, was also struck by a ball on third base and received a painful blow.

A. Buckle, of Strathcona, was referee.

The score was Ponoka, 5; Edmonton, 11. The home team had an innings to play.

The teams were:

Ponoka.	Edmonton.
M. C. White,	Huber,
Kennedy,	Wally Ball,
O'Brien,	Teople,
G. White,	Samis,
Dodd,	2nd b.
Fairfield,	Wilson,
Bonnyman,	3rd b.
Trimble,	Wm. Ball,
Haniff,	Ryckman,
	4th b.
	Till,

The score by innings was:

Ponoka, 000200012-5

Edmonton, 11400104-11.

The Edmonton team look forward to a visit to Ponoka shortly to play a friendly return game.

GUN CLUB TOURNAMENT.

Held July 3rd. The winner in each event is the first contestant named:

Langworthy cup, 15 shots and five pairs:

J. H. Morris,	18
Geo. A. Gouin,	14
P. Anderson,	14
W. H. Spratt,	12
Wm. Pierce,	10
W. E. Heist,	9
G. Coriveau,	3

Open shot, 10 singles:

RIFLE MATCH AT THE FORT.

A rifle match, Police vs. Civilians, took place at the Fort last Saturday, the civilians winning by 35 points.

Martina-Henri rifles were used, seven rounds at 200, 500 and 600 yards. Some of the high scores were: John F. Forbes, 81; J. Graham, 76; Const. Blyth, 75; The teams were:

Police.	Civilians.
Latimore,	Ferguson,
McLellan,	Graham,
Long,	Waldie,
Chesborough,	Durrant,
Calra,	Gosley,
Welsh,	Anderson,
Phillips,	Dr. Bennett,
Blyth,	Forbes,

From the Moose Jaw Times: A serious accident occurred between eight and nine o'clock Wednesday morning.

Mr. Bogue, our popular pioneer merchant, has been excavating for a new addition to this store, and also for a foundation under the annex occupied by the grocery and boot and shoe departments. The work of excavating was about completed last Tuesday night, the rear part of the stone foundation of the Gas block adjoining. The heavy rains of Tuesday night undermined the stone wall, causing it to cave in, and the rear portions of the two buildings came down with a crash.

Mr. Bogue's building, which is frame, is a total wreck, and the one side and roof of the Gas building is also in ruins. The grocery stock is almost entirely destroyed, the store having fallen upon the shelves, boots and shoes and other goods. Together it is estimated that \$3,000 will scarcely cover the loss.

Business in Force Over Twelve Millions.

The Great West Life Assurance Company has, from its inception, pursued a most conservative course with regard to its Reserve, realizing the importance of fully safeguarding the interests of its policy-holders and making provision that affords undoubted security for carrying out all contracts entered into, and until two years ago was the only Canadian Company adopting the stricter standard. That this course was wisely directed is evidenced by the fact that the Canadian Government has, since 1st January, 1900, required from all Companies a higher standard of Reserve, thus endorsing the sound policy of the Great West Life.

In addition to creating an ample Reserve, there are two other factors of vital importance to the policy-holders, namely, the safe and the remunerative investment of the funds. That this Company can point to the fact that it does not carry one dollar's worth of property under forced mortgages, is sufficient testimony to the manner in which its investments have been made. While thus successfully handling its funds, it has been able to earn a higher rate of interest than any other Company, justifying its claim to be the best Company for its policy-holders and proving it worthy of the recommendation of its friends.

The great western country of Canada is acknowledged by all to be the most favorable field for the investment of money provided the investor is experienced and possesses a thorough knowledge of the country. The Great West Life is fortunate in having on its Board of Directors many of the leading, and most experienced and successful investors of capital in the West.

The fact that the Great West Life Assurance Co. earns two per cent. more interest on its funds than any other Company doing business in Canada explains why it can, at the same time, charge a lower premium and return to its policy-holders a greater dividend than any of its competitors.

REGARDING HOGS.

The annual report for 1900 of the Northwest department of agriculture has the following regarding hog raising. The report says:

It is pleasing to note that the Territories are gradually reaching the point when the local demand for fresh pork can be supplied by the hog raisers. During the year 1899 some 1,225 head of hogs were brought into the Territories from the provinces of Ontario and Manitoba. During the past year the total importation only amounts to 870 head, 568 from Ontario and 302 from the province of Manitoba, and from the former should be deducted 211 head imported by this department for breeding purposes, which brings our total importations below 500 head. Cured meats are, however, brought in at about the same rate as before. The erection at Edmonton and Calgary of extensive pork packing establishments should, in time, exercise an influence on the importation of cured pork, and it is hoped that within very few years, those concerns will be able to draw a sufficient supply of hogs from Northern Alberta to supply local demands as well as a large share of the cured meats required in the mining districts of British Columbia.

A comparison is made between prices paid for live and dressed hogs at Winnipeg and Edmonton for the months of the years 1899 and 1900. During 1900 the price of live hogs at Edmonton is quoted as standing at 51-58 per pound. At Winnipeg the price ran from 45-46 in January to 51-46 in May, September, October, and November.

The report continues: A memorandum was published in last year's report setting forth the manner in which the department proposed to encourage the production of the bacon type of hogs in Alberta. An arrangement was entered into between the Canadian Pacific Company, the Calgary & Edmonton Land Corporation and the department, whereby the two former agreed to defray the cost of transportation and incidental expenses in connection with a series of public sales of selected swine along the Calgary & Edmonton railway, in consideration of the department taking charge of the organization and execution thereof. Sales were held as follows: Calgary second of May, Olds third, Red Deer fourth, Innisfail fifth, Lacombe seventh, Wetaskiwin ninth, Lethbridge eleventh and Strathcona on the twelfth of May. The shipment arrived during the last week in April, and Mr. Honeyman, chief clerk in this department, proceeded west and represented the department at the various sales, taking entire charge of the same. I herewith attach Mr. Honeyman's report, to which is appended a statement of the receipts and expenditure. It will be noticed that the statement in question shows a total loss on the shipment of \$141.51. In pursuance of the arrangement entered into with Mr. A. M. Newton, on behalf of the Calgary & Edmonton Land Corporation, the company paid the amount in question, so that the scheme was carried out without any expenditure of public funds beyond the cost of the clerical work in connection with the organization.

The special report of J. R. C. Honeyman, was conducted the sale of purchased hogs along the Calgary & Edmonton line, is as follows: In accordance with instructions I left Regina on the morning of the twenty-ninth April to superintend the sale of purchased and high grade swine imported under the auspices of the department for distribution at the principal points on the line of the Calgary & Edmonton railway company. As soon as possible after my arrival at Calgary I visited the stockyards and found that all the hogs had been unloaded and turned into a convenient yard which had been made as comfortable as possible for the sale. This was done under the supervision of Mr. F. W. Hodson, the Dominion live stock commissioner, whom I met on the ground and who took the most lively interest in the sales and spared neither time nor trouble in order to make the first one a success. Mr. Hodson accompanied us as far as Olds, returning to Calgary after the sale there.

The animals appeared to have stood the journey well and seemed lively and healthy. The hogs being in crates could not be turned out. Up till the afternoon of the sale the animals were kept in the crates, the Calgary sale started, much time was taken in making arrangements in connection with the sale, purchasing supplies and interviewing the C. M. P. R. and C. & E. officials and arranging transportation on the north road, besides paying frequent visits to the stockyards. The railway authorities fell in readily with the arrangements proposed and offered every facility in the way of handling our cars to the best advantage. With the exception of two instances when it was found possible to utilize "specials" and so avoid the necessity for having the cars handled by passenger trains, the schedule prepared in the department under your directions was adhered to.

The general arrangements in connection with the sales were as follows: Only a limited number of animals was offered at each point, the disposing of those efforts were made to have representatives of each of the three cash sales. Purchasers were not allowed to pick animals until after the last sale at Strathcona, though an effort was made to offer as far as possible, the class of animal desired. In this way, there was no "culling" and the animals offered at the last sale were quite as good as those disposed of further south. No effort was made to force sales and if an animal got back it was put back in the car. Before commencing each sale the terms of sale were fully explained by the auctioneer. These were briefly: Animals to be sold for cash only. Not more than one hog and one sow to be sold to any one person. The purchaser of each animal to sign an undertaking not to kill or otherwise dispose of the animal or remove it from the Northwest Territories without first obtaining permission in writing of the commissioner of agriculture. The

auctioneers also explained to those attending the sales that the department did not wish to send the animals to large pens, but merely, a pen to be used to hold a small number of animals to cover the expense of feed and attendance. This object desired by the department in bringing in animals was, as a matter of fact, as well as the result of the attached statement, the shipment did not quite pay for itself, largely owing to the fact that no expense was spared to provide for the animals' comfort during the long trip and maintain them in the best of health and condition. This end was accomplished and the last animals arriving were all appearing as lively and healthy and in as good condition as the first. It is a matter of fact, as Mr. J. G. Knap, and his associates who had charge of the animals, that notwithstanding the fact that a period of 22 days elapsed between the date on which the animals left Ontario and that on which the last was disposed of, nearly the whole of which time they were confined in the cars, the hogs were crates out of a shipment of 211 only two were lost; one owing to a severe injury received in transit, and the other from some cause which could not be ascertained, it having been found dead in the car one morning. Every opportunity was taken of allowing the hogs to exercise, but this could only be done in one or two instances owing to the bad condition of the majority of the stock on the whole unexceptional, which no doubt contributed to the favorable attendance.

Each animal was furnished with an ear tag the number on which corresponded with its number on the shipping list furnished by Mr. Westwood, which showed the weight and cost of each. Unfortunately a considerable number of tags had got lost during the journey and in consequence it was impossible to identify these by the list. In such cases a rough estimate was made of the weight and the price fixed accordingly. A blank was furnished to every purchaser of an animal with an ear tag giving name of breeder and in the case of sows the date of service and register number of the boar. The public attending sales were duly advised by the auctioneers that the department could not guarantee any particular animal to be in pig.

Throughout the sales by far the greatest preference was evinced towards Berkshires. Many would not look at any other breed. The Tamworths were a comparative novelty and caused considerable comment, not always of a favorable nature. There were, however, quite a number of farmers who appreciated the value of this breed and bought them readily, but the majority of those attending the sales were newly arrived American immigrants from Nebraska and the Dakotas, many of whom had never seen pigs of the type before. There were a considerable number of inquiries for Poland Chinas, which were, of course, not represented in our shipment.

The Calgary sale was well attended, many of the leading ranchers and farmers of the district being present. The bidding was lively and at times the competition was quite keen. The auctioneer was Mr. Grogan, of Messrs. Ellis & Grogan, of Calgary. At this and all other sales I acted as clerk to the auctioneer and took charge of proceeds.

The Olds sale was the most poorly attended of any, principally owing to the fact that the advertising sent out by the department had barely reached the outlying districts. This as you know, it was impossible to avoid. Nothing but Berkshires were in demand at this point. The sales at Red Deer, Innisfail, Lacombe, Wetaskiwin and Lethbridge took place at the times and on the dates advertised and call for no particular remarks. All sales from Olds north were conducted by Mr. W. J. Lacombe, who well justified the department's choice. He did not confine himself strictly to his duties as auctioneer, but was always ready to make himself generally useful in any way in his power.

At Strathcona the directors of the local agricultural society took a great deal of interest in the sale and had managed to arouse considerable interest among the farmers of the district. Mr. A. W. Toll, the secretary of the society, was unparagoned in his efforts to make everything go off well and rendered personally very valuable assistance during the course of the sale. The sale was very largely attended and the bidding was keen. We had a considerable number of animals to dispose of, namely, 66. Fifty-four were disposed of by auction and one was sold privately to a private bargain afterwards. Acting on instructions received from you I offered the balance to the agricultural society to dispose of as they saw fit at the prices fixed by the department. The directors held a meeting at which I was present and explained the department's proposition. After some discussion they decided not to entertain it. Subsequently the small number of animals remaining were sold to the Prackman-Kerr Milling Co. at a fair price.

She Didn't wear a Mask

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for supplying Coal for the Dominion Buildings," will be received at this office until Saturday, June 22nd, 1901, inclusive, for the supply of coal for Public Buildings throughout the Dominion.

Combined specifications and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures. Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent of amount of the tender, which will be forfeited if the party declines to enter into a contract when called upon to do so or if he fails to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender. By order,

JOS. R. ROY,
Acting Secretary,
Department of Public Works,
Ottawa, June 6th, 1901.
